

SCHOOL OF COMPUTER SCIENCE AND ENGINEERING

Internship Report

# Data Analytics Job Simulation at Deloitte

---

*Submitted in partial fulfilment of the requirement for the degree of B.Tech in Computer Science & Engineering*

**Hassan Mansoori**

Roll No. 2410030674 | B.Tech CSE | Batch 2026–27

# Candidate's Declaration

“

I, Hassan Mansoori, do hereby declare that the internship report titled “Data Analytics Job Simulation at Deloitte” has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in CSE.

All references have been duly quoted, and no material has been taken from any other source without acknowledgement. This report is my own work and has not been submitted to any other institute for any degree or diploma.

**Hassan Mansoori**  
Roll No. 2410030674

## Acknowledgement

I am using this opportunity to express my gratitude to everyone who supported me throughout the internship programme. I am thankful for their aspiring guidance, invaluable constructive criticism, and friendly advice during this work, and for sharing their truthful and illuminating views on a number of issues related to it.

I also express my heartfelt gratitude to my parents for their blessings and continued support.

# About the Organisation

## Deloitte

Deloitte is one of the world's leading professional services networks, operating across audit, tax, risk advisory, enterprise technology, and strategy consulting. It is regarded as one of the “Big Four” global accounting and consulting firms, helping organisations turn complex data into strategic business decisions.

*To bridge academic learning and workplace readiness, Deloitte partners with the Forage platform to deliver open-access, self-paced Job Simulations that mirror real consulting assignments.*

## The Data Analytics Job Simulation

### School / Programme

School of Computer Science and Engineering, B.Tech CSE

### Simulation Focus

Data analysis and forensic technology

### Tools Used

Microsoft Excel and Tableau

### Format

Self-paced, open-access virtual experience

### Issued By

Forage, verified by Deloitte

# Tasks Completed During the Simulation

*Practical tasks certified by Deloitte, covering both ends of the data analytics lifecycle*

**01**

## Data Analysis & Dashboarding

Unified telemetry data from four global factory sites into a single dataset, then built an interactive Tableau dashboard to identify operational bottlenecks and downtime trends for business stakeholders.

---

### SKILLS APPLIED

Data cleaning · Data unification · Tableau dashboard design · Trend analysis

**02**

## Forensic Technology Analysis

Investigated internal complaints of pay inequality by applying a forensic analysis approach in Excel to quantify gender pay equality across roles and locations, then proposed business conclusions to the forensic lead.

---

### SKILLS APPLIED

Forensic data analysis · Advanced Excel · Statistical reasoning · Business communication

# Key Learning Outcomes

- **Analytical Thinking**

Translating messy, real-world business data into structured insight for decision-makers.

- **Tool Proficiency**

Hands-on fluency with Excel for forensic analysis and Tableau for interactive visualisation.

- **Professional Communication**

Framing data findings as clear business conclusions for non-technical stakeholders.

- **Workplace Readiness**

Experiencing how an entry-level data analyst approaches real consulting assignments at a Big Four firm.

# Internship Completion Certificate

**Deloitte.**

**HASSAN MANSOORI**
